March 22, 2018

Dear Parents/Guardians:

With the recent passing of the Education Reform Act, government is moving ahead to unify the education system. I'm writing to reassure you that our ongoing commitment to the students, families and staff of the Cape Breton-Victoria region will continue.

These changes to the educational administrative structure will allow more resources for classrooms and create a solid foundation for continuous improvements, including increased support for all students through a new model for inclusive education.

As of March 31, 2018, our elected school board will be dissolved; however, central office staff will remain in place and school board offices will be renamed Regional Centres for Education. Anything you would have contacted your elected board member regarding, please feel free to contact us directly at 902-564-8293. We will continue to make the same local decisions as we do now and remain committed to providing excellent service and support to our school communities.

I look forward to working with you as we continue to improve programs and services for all the students in our region.

Sincerely,

A handwritten signature in black ink that reads "Beth Maclsaac". The signature is written in a cursive, flowing style.

Beth Maclsaac  
Superintendent
