

Riverview Family of Schools Proposals

School	Proposal	Students to be Accommodated	Scenarios	Comparitives
Riverview High	10-12	No change		This is a unique situation given there currently is no opportunity to house Grade 9 students in the school at the present time. In the longer term, a TCA project for an addition could be considered. Acquiring a TCA project would result in a grade level reconfiguration in this Family of Schools to become consistant with the remainder of the board, although at a later time frame.
MacLennan Jr High	P-9	Current 7,8,9 students at MacLennan Jr High plus P-6 from Robin Foote	Admin 2	Creation of a Primary to 9 school similar to suggestion for a Primary to 8 school at DTLS in Florence; Primary to 8 suggestion for Route 22; Primary to 8 school suggestion for Harbourside; and a Primary to 8 school suggestion for Donkin. Primary to 8 schools are also being suggested for Cape Smokey and North Highlands.
Malcolm Munroe	7-9	Current students plus Grade 9 French Immersion from Whitney Pier Memorial		This is a unique situation given there currently is no opportunity to house Grade 6 students in the school at the present time.
Coxheath	P-6	Current Students		Like Rankin and Riverview, no changes are suggested at this time.
East Bay	Review for Permanent Closure		18	Like Gowrie, a complexed school, not benefiting from a \$150,000 small school grant and like Gowrie, students can be transported from home to the proposed receiving school in under an hour.

Riverview Family of Schools Proposals

School	Proposal	Students to be Accommodated	Scenarios	Comparitives
Mountainview	P-6	Mountainview & East Bay students	18	Consolidation of two schools in a Primary to 6 setting similar to Sydney River . Also similar are consolidations at BrasD'or, Ferrisview, Greenfield, Jubilee and St Anne's where consolidations in a Primary to 5 setting are suggested.
Robin Foote	Review for Permanent Closure		Admin 2	Similar to Whitney Pier and Florence, combine elementary and junior high students in a P to 8 setting.
Sydney River Elementary	P-6	Students from Sydney River and Mira Road	19	Consolidation of two schools in a Primary to 6 setting similar to Mountainview . Also similar are consolidations at BrasD'or, Ferrisview, Greenfield, Jubilee and St Anne's where consolidations in a Primary to 5 setting are suggested.
Mira Road	Review for Permanent Closure		19	Like John Bernard Croak, Boularderie, Seton, and St. Joseph's, consolidate student population in a receiving school.
George D Lewis	Consider renovation or closure	Primary to 9 Students from Riverside and George D Lewis catchment areas	13; 14; SAC 11; Public 3	Similar to Donkin and Port Morien combining nearby student population in a P-8 environment. Like a suggested Middle School to replace Sydney Mines Jr High and Thompson Jr High has a dynamic around a new school versus a renovation at an existing school. Also like a suggested elementary school to replace Bridgeport, MacDonald and Tompkins has a dynamic around a new school verus renovation of an existing school. Given Riverside is a P3 school this must be considered.

Riverside	Consider renovation or closure	Primary to 9 Students from Riverside and George D Lewis catchment areas	13;14;SAC 11;Public 3	Similar to Donkin and Port Morien combining nearby student population in a P-9 environment. Like a suggested Middle School to replace Sydney Mines Jr High and Thompson Jr High has a dynamic around a new school versus a renovation at an existing school. Also like a suggested elementary school to replace Bridgeport, MacDonald and Tompkins has a dynamic around a new school versus renovation of an existing school. Given Riverside is a P3 school this must be considered.
Marion Bridge	P-6	No Change	16	Like Middle River, a small school receiving a \$150,000 grandfathered small school grant. Like North Highlands, a small school, which if closed, would result in long bus rides for younger children.
